

Stallion Sahara Powersports is a high/ slow speed tire pressure management solution and tire sealant designed for all Powersports tube and tubeless tires. The formula is designed for ATVs and off-the-road equipment and vehicles. Sahara Powersports will maintain air pressure, seal bead/rim leaks and self-repair punctures up to 1/2" in diameter. Sahara Powersports is the only gel formula with the highest operating temperature.

34 oz.
Part# 34PS

- Superior sealing capabilities in wide range of operating pressures
- Stops air loss and retains correct tire pressure by sealing the entire casing from normal casing porosity
- Continually self-seals punctures up to 1/2" (1.2 cm) in diameter
- Protects tire casing from heat and oxidation damage
- Operates between -58°F to 370°F (-50°C to 188°C)
- Stops Bead/Rim leaks
- Added safety for used and recapped tires
- Does not pool to the bottom or block the valve system
- Does not interfere with retreading. Will not cause chamber fires in a retread plant
Test results available upon request
- Approved for use with TPMS
- Helps retain casing integrity
- Washes out easily with water
- Non-hazardous
- Non-flammable
- Biodegradable
- Non-toxic
- DOES NOT FREEZE
